Everest Re Group Reports First Quarter 2016 Results; 12% Annualized Operating Return on Equity

April 25, 2016 4:15 PM ET

HAMILTON, Bermuda--(BUSINESS WIRE)--Apr. 25, 2016-- Everest Re Group, Ltd. (NYSE:RE) today reported first quarter 2016 after-tax operating income¹ available to common shareholders of \$222.7 million, or \$5.19 per diluted common share, compared to after-tax operating income¹ of \$329.9 million, or \$7.34 per diluted common share, for the first quarter of 2015. Net income available to common shareholders was \$171.7 million, or \$4.00 per diluted common share, for the first quarter of 2016, compared to net income of \$323.0 million, or \$7.19 per diluted common share, for the same period last year.

Commenting on the Company's results, President and Chief Executive Officer, Dominic J. Addesso said, "Against the backdrop of what continues to be significant challenges affecting both investment and underwriting activities, Everest produced strong results with an annualized operating return on equity of 12% for the quarter. While foreign currency headwinds and declining rates are hampering growth in our reinsurance book, we are seeing strong and profitable growth in our insurance book as new initiatives take hold."

Effective this quarter, the Company adopted Accounting Standards Update 2015-02, "Consolidation (Topic 810): Amendments to the Consolidation Analysis". As a result, the segregated accounts of Mt. Logan Re, Ltd. have been deconsolidated from the Company results. The adoption of this amended accounting guidance has been implemented utilizing a full retrospective application for all periods. Note that this change had no impact to the prior reported net income or retained earnings of the Company.

Operating highlights for the first quarter of 2016 included the following:

- Gross written premiums decreased 5% to \$1.4 billion compared to the first quarter of 2015, but eliminating the unfavorable effects of foreign currency fluctuations, premiums were actually down 3%. Worldwide, reinsurance premiums were down 8%, on a constant dollar basis, while insurance premiums were up 11%, quarter over quarter.
- The combined ratio was 86.0% for the quarter compared to 83.1% in the first quarter of 2015. Excluding catastrophe losses arising from the Taiwan earthquake that occurred in the quarter, and prior year development, the attritional combined ratio was 85.3% compared to 83.1% in the same period last year.
- Net investment income for the quarter was \$102.5 million, including a loss of \$6.2 million on limited partnership investments.
- Net after-tax realized capital losses were \$51.0 million, while net after-tax unrealized capital gains totaled \$175.3 million, for the quarter.
- Cash flow from operations was \$367.1 million compared to \$350.6 million for the same period in 2015
- For the quarter, the annualized after-tax operating income¹ return on average adjusted shareholders' equity² was 11.7%
- During the quarter, the Company repurchased 464,360 of its common shares at an average price of \$185.00 and a total cost of \$85.9 million. The repurchases were made pursuant to a share repurchase authorization, provided by the Company's Board of Directors, under which there remains 3.6 million shares available.

¹The Company generally uses after-tax operating income (loss), a non-GAAP financial measure, to evaluate its performance. After-tax operating income (loss) consists of net income (loss) excluding after-tax net realized capital gains (losses) as the following reconciliation displays:

(Dollars in thousands, except per share amounts)	Three Mon March 31, 2016	ths Ended (unaudited)	2015	Per Diluted	
	Amount	Per Diluted Common Share	Amount	Per Diluted Common Share	
Net income (loss) After-tax net realized capital gains (losses)	\$171,686 (50,979)	\$ 4.00 (1.19)	\$322,978 (6,896)	\$ 7.19 (0.15)	
After-tax operating income (loss)	\$222,665	\$ 5.19	\$329,874	\$ 7.34	

(Some amounts may not reconcile due to rounding.)

Although net realized capital gains (losses) are an integral part of the Company's insurance operations, the determination of net realized capital gains (losses) is independent of the insurance underwriting process. The Company believes that the level of net realized capital gains (losses) for any particular period is not indicative of the performance of the underlying business in that particular period. Providing only a GAAP presentation of net income (loss) makes it more difficult for

users of the financial information to evaluate the Company's success or failure in its basic business, and may lead to incorrect or misleading assumptions and conclusions. The Company understands that the equity analysts who follow the Company focus on after-tax operating income (loss) in their analyses for the reasons discussed above. The Company provides after-tax operating income (loss) to investors so that they have what management believes to be a useful supplement to GAAP information concerning the Company's performance.
