Everest Re Group Reports Fourth Quarter and Full Year 2018 Results

February 11, 2019 4:15 PM ET

HAMILTON, Bermuda--(BUSINESS WIRE)--Feb. 11, 2019-- Everest Re Group, Ltd. ("Everest") (NYSE: RE) today reported fourth quarter 2018 net loss of \$382.3 million, or \$9.50 per common share, compared to net income of \$571.0 million, or \$13.85 per diluted common share for the fourth quarter of 2017. After-tax operating loss¹ was \$236.9 million, or \$5.89 per common share, for the fourth quarter of 2018, compared to after-tax operating income¹ of \$535.5 million, or \$12.98 per diluted common share, for the same period last year.

For the year ended December 31, 2018, net income was \$103.6 million, or \$2.53 per diluted common share, compared to net income of \$469.0 million, or \$11.36 per diluted common share, for the year ended December 31, 2017. After-tax operating income¹ was \$190.7 million, or \$4.65 per diluted common share, compared to after-tax operating income¹ of \$412.6 million or \$10.00 per diluted common share, for the same period in 2017.

Commenting on the Company's results, President and Chief Executive Officer, Dominic J. Addesso said, "During 2018 there were nearly \$90 billion of insured industry losses, the fourth highest on record. Despite these events, Everest had both positive net income and operating income for the year. This result is testament to the diversification of our business across geographies, classes of business, and sources of capital. Everest's long term returns remain impressive, with 5 and 10 year average returns on equity still in excess of 10%."

Effective this year, the Company changed its reporting of operating income, a non-GAAP financial measure. Historically operating income represented net income, excluding realized capital gains and losses and the tax impact related to the enactment of the Tax Cuts and Jobs Act. Starting in first quarter 2018, the Company further adjusted operating income to exclude foreign exchange gains and losses as it believes the impact of foreign currency movements on income is not indicative of the performance of the underlying business in a particular period.

Operating highlights for the fourth quarter of 2018 included the following:

- Gross written premiums for the quarter were \$2.3 billion, an increase of 18% compared to the fourth quarter of 2017. Worldwide reinsurance premiums were up 26% to \$1.7 billion with growth across each segment including increased casualty and property pro-rata premium, increased shares on existing business and profitable new growth.
- The combined ratio was 134.1% for the quarter and 108.8% for the year, compared to 70.0% and 103.5% for the same periods in 2017. Excluding catastrophe losses, reinstatement premiums and the favorable prior period loss development, the current attritional combined ratio was 90.4% for the quarter and 87.0% for the year, compared to 83.7% and 85.0% for the same periods in 2017.
- Catastrophe losses, net of reinsurance and reinstatement premiums, amounted to \$875.0 million in the quarter, primarily related to losses from Hurricane Michael, the California Camp and Woolsey wildfires and an Australia hailstorm event.
- Net investment income amounted to \$140.2 million for the quarter and \$581.2 million for the full year 2018, up 7% over the full year 2017 results.
- Net after-tax realized losses amounted to \$143.9 million for the quarter. For the full year, net after-tax realized capital losses were \$109.1 million, while net after-tax unrealized capital losses were \$228.2 million.
- Cash flow from operations was \$66.4 million for the quarter and \$610.1 million for the full year 2018. This compared to \$118.5 million and \$1.2 billion for the same period, respectively, in 2017.
- Although no shares were repurchased during the quarter, the Company repurchased 342,179 shares at a total cost of \$75.3 million for the year 2018. The repurchases were made pursuant to a share repurchase authorization, provided by the Company's Board of Directors, under which there remains 1.4 million shares available.
- Shareholders' equity ended the year at \$7.9 billion compared to \$8.4 billion at year end 2017. Book value per share was down from \$204.95 at December 31, 2017 to \$194.43 at December 31, 2018.

This news release contains forward-looking statements within the meaning of the U.S. federal securities laws. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the U.S. Federal securities laws. These statements involve risks and uncertainties that could cause actual results to differ materially from those contained in forward-looking statements made on behalf of the Company. These risks and uncertainties include the impact of general economic conditions and conditions affecting the insurance and reinsurance industry, the adequacy of our reserves, our ability to assess underwriting risk, trends in rates for property and casualty insurance and reinsurance, competition, investment market fluctuations, trends in insured and paid losses, catastrophes, regulatory and legal uncertainties and other factors described in our latest Annual Report on Form 10-K. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

About Everest Re Group, Ltd.

Everest Re Group, Ltd. ("Everest") is a leading global provider of reinsurance and insurance, operating for more than 40 years through subsidiaries in the U.S., Europe, Bermuda and other territories.

Everest offers property, casualty, and specialty products through its various operating affiliates located in key markets around the world.

Everest common stock (NYSE:RE) is a component of the S&P 500 index.

A conference call discussing the fourth quarter results will be held at 10:30 a.m. Eastern Time on February 12, 2019. The call will be available on the Internet through the Company's web site or at <u>www.streetevents.com</u>.

Additional information about Everest, our people, and our products can be found on our website at <u>www.everestre.com</u>

Recipients are encouraged to visit the Company's web site to view supplemental financial information on the Company's results. The supplemental information is located at <u>www.everestre.com</u> in the "Financial Reports" section of the "Investor Center". The supplemental financial information may also be obtained by contacting the Company directly.

¹ The Company generally uses after-tax operating income (loss), a non-GAAP financial measure, to evaluate its performance. After-tax operating income (loss) consists of net income (loss) excluding after-tax net realized capital gains (losses), after-tax net foreign exchange income (expense), and the tax charge related to the enactment of the Tax Cuts and Jobs Act of 2017 (TCJA), as the following reconciliation displays:

(Some amounts may not reconcile due to								

rounding.)

Although net realized capital gains (losses) and net foreign exchange income (expense) are an integral part of the Company's insurance operations, the determination of net realized capital gains (losses) and foreign exchange income (expense) is independent of the insurance underwriting process. The Company believes that the level of net realized capital gains (losses) and net foreign exchange income (expense) for any particular period is not indicative of the performance of the underlying business in that particular period. Providing only a GAAP presentation of net income (loss) makes it more difficult for users of the financial information to evaluate the Company's success or failure in its basic business, and may lead to incorrect or misleading assumptions and conclusions. The Company understands that the equity analysts who follow the Company focus on after-tax operating income (loss) in their analyses for the reasons discussed above. The Company provides after-tax operating income (loss) to investors so that they have what management believes to be a useful supplement to GAAP information concerning the Company's performance.

Return on equity calculations use adjusted shareholders' equity excluding net after-tax unrealized (appreciation) depreciation of investments.
