Cautionary note on forward-looking statements

This presentation contains forward-looking statements within the meaning of the U.S. federal securities laws. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the U.S. Federal securities laws. These statements involve risks and uncertainties that could cause actual results to differ materially from those contained in forward-looking statements made on behalf of the company. These risks and uncertainties include the impact of general economic conditions and conditions affecting the insurance and reinsurance industry, the adequacy of our reserves, our ability to assess underwriting risk, trends in rates for property and casualty insurance and reinsurance, competition, investment market fluctuations, trends in insured and paid losses, catastrophes, regulatory and legal uncertainties and other factors described in our latest Annual Report on Form 10-K. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Strong results despite challenges posed by:

- Soft market 1997-2001
- Asbestos and environmental (A&E) claims development (excluding A&E, the 5 year combined ratio and pretax ROR was 97.4% and 15.1%, respectively)
- Financial market meltdown starting in 2007 and into 2008
- Low interest rate environment

- Core reserves have developed favorably over the last 10 years; 2009 strengthening was due to potential subprime losses
- Last strengthening for asbestos reserves was done in 2007 following an extensive review of these liabilities
- Catastrophe loss development was largely due to the hurricanes of 2004 and 2005; recent events have been reserved adequately within the year of occurrence
- IBNR reserves represent more than 50% of overall reserves despite growing proportion of property business
Capital Management Objectives

- Maintain capital at levels in excess of those required to retain ratings
- Target mid-teens ROE over the cycle
- Optimize capital structure; conservatively leverage the balance sheet
- Manage capital flows to/from shareholders to maintain capital efficiency/maximize value per share; ongoing share repurchase program
- Near term – maintain shorter duration and continue to further diversify the portfolio. Seek to mitigate interest rate risk while managing overall credit quality.
Everest historically addresses excess capital through share buybacks.

At December 31, 2011, 19% of total common shares outstanding held as treasury stock.
